

# Unifiller CMD+

Our newly launched machines use **Unifiller CMD+** to digitally control the settings of the CMD Series depositors via a Bluetooth connected tablet. Each machine is sold with a tablet included and setup to begin optimizing your production process.

Control the deposit speed, volume, portioning delays, multiple shots, suckback and pre-charge settings in the palm of your hand. Unifiller CMD+ brings your pneumatic depositor into the digital age of precision.

- ✓ Simple Touch-Screen Settings
- ✓ Unifiller CMD+ Interface is Easy to Navigate
- ✓ Advanced Portioning Features
- ✓ Save Portioning Settings for Tomorrow's Production
- ✓ Intuitive App for Precise Pneumatic Control
